CONTENTS

Foreword ................................................................. ix
Preface ................................................................. xi

DIRECTIONS IN ROBUST STATISTICS
AND DIAGNOSTICS: PART I

Survey of robust procedures for survival data ............... 1
  Michael G. Akritas and Yvonne Zubovic

Simulated annealing for the detection of multiple outliers
using least squares and least median of squares fitting ....... 7
  Anthony C. Atkinson and Sanford Weisberg

Goodness of fit tests and long-range dependence .......... 21
  Jan Beran and Sucharita Ghosh

A functional approach to robust nonparametric regression ...... 35
  Graciela Boente and Ricardo Fraiman

Added variable plots in linear regression .................. 47
  R. Dennis Cook and Sanford Weisberg

Efficiency of reweighted least squares iterates ............ 61
  Michael B. Dollinger and Robert G. Staudte

An overview of small sample asymptotics .................. 67
  Christopher A. Field and Elvezio Ronchetti

Diagnostics, divergences and perturbation analysis ........ 89
  Seymour Geisser

Some mixed questions and comments on robustness ......... 101
  Frank Hampel

Some research directions in rank-based inference .......... 113
  Thomas P. Hettmansperger and Joshua D. Naranjo

Between robustness and diagnostics ....................... 121
  Peter J. Huber
Dependence among observations: Consequences and methods to deal with it .............................. 131
  Hans R. Künsch

Local and deletion influence ........................................... 141
  A.J. Lawrance

Outliers in time series analysis: Some comments on their impact and their detection ........................ 159
  Johannes Ledolter

Breakdown point and asymptotic properties of multivariate S-estimators and τ-estimators: A Summary ..................... 167
  Hendrik P. Lopuhaä

Algorithms and programs for robust linear regression ................. 183
  Alfio Marazzi

Robust $M$-type testing procedures for linear models .................. 201
  Marianthi Markatou, Werner A. Stahel and Elvezio Ronchetti

Recent results on bias-robust regression estimates .................... 221
  Ricardo A. Maronna and Victor J. Yohai

Author index .............................................................. 247

Subject index ............................................................ 250
