Differential Equations:  
Analysis, Applications & Computation

A symposium in honor of  
Hans Weinberger’s 80th Birthday

Speakers:

Donald Aronson  
University of Minnesota

Mark Lewis  
University of Alberta

Howard Levine  
Iowa State University

John Osborn  
University of Maryland

October 4, 2008

University of Minnesota, Minneapolis, MN
Electrical Engineering & Computer Science Building  
200 Union Street, Room 3-180

Topics:

Traveling Waves  Population Biology  Eigenvalue Problems  Numerical Solutions of PDE’s

Organizing Committee:

Willard Miller, University of Minnesota  
Cheri Shakiban, Institute for Mathematics and its Applications

Roger Lui, Worcester Polytechnic Institute

Cosponsored by:

School of Mathematics, Institute for Mathematics and its Applications and Institute of Technology  
University of Minnesota
